# Carry On the Flame

## Triumph

Searchin' for something
In a world that's dark and strange
When you think you've found answers
That's when the questions changeInto your hands it's fallin'
Can't you hear the future callin'[Chorus]
Carry on the flame
Walk inside the light
The wisdom of the light
Don't ever be denied
Can never be denied
Carry on the flame
Through the darkest night
Hold it on high
Keep the fire burnin' deep insideYou live for the moment
But the moment slips away
A better tomorrow takes
Your best todayInto your hands it's fallin'
Can't you hear the future callin'[Chorus]All the king's horses and all the king's men
Won't you try to bring the world together?
AmenYou can set your sights a little bit higher
You can make it burn just a little bit brighter
It's your legacy, your destiny
Carry on the flame
