

Wishful Thinking

MercyMe

Lord is it possible to get this far
And just now understand who You are?
Feeling foolish yet relieved as well
Cuz what I bought before, I just can't sell

But now my eyes are open wide
If this is wrong
I don't wanna be right

Could it be that on my worst day
How you love me simply will not change
What if it's really not about
What I do but what you did, oh what if

This ain't wishful thinking it's just how it is
This ain't wishful thinking it's just how it is

Well, I guess I'm better late than not at all
Or did you plan it this way all along
Cuz without suffering grace is hard to see
So maybe I'm right where I'm supposed to be

And now, I'm thinking you so differently
And only I can say is finally

Could it be that on my worst day
How you love me simply will not change
What if it's really not about
What I do but what you did, oh what if
This ain't wishful thinking it's just how it is
This ain't wishful thinking it's just how it is
It's just how it is

But now my eyes are open wide
If this is wrong Lord do not make me, don't you make me right

Now I know that on my worst day
The way you love me it ain't never change
It's never really been about what I do but what you did
Yes it is

This ain't wishful thinking it's just how it is
This ain't wishful thinking it's just how it is
