No Rest For The Weary

Blue Scholars

Yo
Yeah
Okay

No matter where you are
A struggle's nearby
And there ain't enough time
For lovers to say "hi"
Some nights require the spark
A fire to remind us
What we really look like in the dark

So let it go
Let it go
Let it go
Let it go
Hey, let it go
Let it go
Just let it go
Let it go
Let it go
Let it go
And let it go
Uh huh
Dude let it go
And let it go
Let it go
Just let it go
Just let it go
Yeah

Miss Mahogany
Hey
I hear you callin me
Hello
You had a dream last night
That you were rockin' me.

And now you talkin' of
Fulfillin' the prophecy

I got you open like;
Like a true democracy.
Yeah.

My policy has always been
Ladies first;
It begins where the skin starts
And ends when it hurts

You the first one to find me
In the cold like that, no
Disguise when the prize
Make your eyes roll back

I suppose it makes us wanna
Fight that harder
I know sometimes the fire
Needs water so
Call up your partners
And tell 'em not to bother
Cause tonight we gettin' far
From the cops and the robbers

Do it like
Moms and pops when they made us
Simulating scenes by adult entertainers
Burning two meals worth of calories,
Later, we just laid there and laughed,
Haha
It pays to relax
Okay

No matter where you are
A struggle's nearby
And there ain't enough time
For lovers to say "hi"
Some nights require the spark
A fire to remind us
What we really look like in the dark

So let it go
Let it go
Let it go
Let it go
Hey, let it go
Let it go

Just let it go
Let it go
Let it go
Let it go
And let it go
Uh huh
Dude let it go
And let it go
Let it go
Just let it go

I see how you work
Lately you been grim
And determined to win
It's how they want us to get
Now we come to expect
Nothing less than the best
Just pause and reflect
Nothing honest as sweat

Now we linger in the heat
Simmer in the sheets
Put the tingle in your feet
You do armor these
How does it feel to make
Your cipher complete?
Daily you professional
At night she's a freak.

Now
She's just chillin'
I'm just chillin'
Let's inspire the neighbors
To make children
But all this babble is
Making the love livid and
Feeling like a prisoner
With conjugal visiting

Every time I break
You are feelin' religious saying
Oh my god
Oh my god
Conversations till one
Have relations till four

In the morn'
You've been warned
I'm a warrior y'all

Okay

No matter where you are
A struggle's nearby
And there ain't enough time
For lovers to say "hi"
Some nights require the spark
A fire to remind us
What we really look like in the dark

So let it go
Let it go
Hey let it go
Let it go
And let it go
Let it go
Just let it go
Let it go
Let it go
Let it go
And let it go
Let it go
Let it go
Let it go
Just let it go
Just let it go

Hmm?
Okay.
