You're the One for Me (Urban Mix)

April

Here we goThinking of the moment we first met
I looked in your eyes I can't forget
All the loving that you made me feel
I had the chance to look the other way
My love for you grows stronger everyday
Understand your all I really needChorus:
I know, you're the one for me
Together we were meant to be
Can't you see
You're the one for meEverytime I start to look around
The thought of losing you just brings me down
Is it something I should care about
I got something I just can't let go
Stay close to me, I want to let you know
I love you soChorus (2x)So many nights i'd lie awake
Thinking of a way
And baby I just want to say
I love youChorus (4x)
