

Leave the Planet

Galaxie 500

You said, it's time to get your clothes on
You said, it's time to leave the planet
You said, don't even bring your wallet
You said, it's time to leave the planet You said that I could bring my guitar
You said, it's time to leave the planet
You said that I could bring my guitar
You said, it's time to leave the planet
