

Back In the Day

Obey the Brave

those were the teenage years
swimming laps at the pool
getting high
trading tapes
playing drums after school
then i hung up my skates
toured the united states
life in a van
on a plane
playing shows with the greats go go
we can't live in the past
go go
but still we make it last
go go
we know what we stand for
1234remember back in the day
it was all good
we followed our own way
but no one understood
it was all fun and games
we did our own thing
against the grain remember back in the day
it was all good
we followed our own way
but no one understood
it was all fun and games
we did our own thing
against the grain
those were the wonder years
finally got my degree
sipping drinks
dating chicks
2 year MVP
but the i changed my ways
turned it upside down
my turn to get played
felt like a fucking clown remember back in the day
it was all good
we followed our own way

but no one understood
it was all fun and games
we did our own thing
against the grainremember back in the day
it was all good
we followed our own way
but no one understood
it was all fun and games
we did our own thing
against the grainwhere have you gone
my long lost friends
where have you gone
my long lost friends
back then we said
that it would be til the end
where have you gone
my long lost friendsremember back in the day
it was all good
we followed our own way
but no one understood
it was all fun and games
we did our own thing
against the grainremember back in the day
it was all good
we followed our own way
but no one understood
it was all fun and games
we did our own thing
against the grainwhere have you gone
my long lost friends
back then we said
that it would be til the end
where have you gone
my long lost friends
