

Assfault

Dry Kill Logic

I'll give you just a little, I'll give you just a little
I'll give you just a little of what you need
And then I take a little and then I take a little
And then I take a little and now it seems Like everything is a lie, like everything is a lie
Like everything is a lie and yet they try
To force it back up on you, to force it back up on you
To force it back up on you, what will you do? You think I'm tougher than this, you think I'm tougher than this
You think I'm tougher than this, you'll be dismissed
You think it's easy for me, you think it's easy for me
You think it's easy for me to believe That every word has been said, that every word has been said
That every word has been said and left for dead
My pride is bigger than that, my pride is bigger than that
My pride is bigger than that, remains intact Now I take this and I could care less about your distress
I lie in the bed that I have made
Now I take this and I could care less about your distress
I lie in the bed that I have made And now I'm coming for you, and now I'm coming for you
And now I'm coming for you, what will you do?
This time I prove it to you, this time I prove it to you
This time I prove it to you, follow through And there is nowhere to hide, and there is nowhere to hide
And there is nowhere to hide that you will find
This is the end of the line, this is the end of the line
This is the end of the line and it's you I find Now I take this and I could care less about your distress
I lie in the bed that I have made
Now I take this and I could care less about your distress
I lie in the bed that I have made [Inaudible] Now I take this and I could care less about your distress
I lie in the bed that I have made
Now I take this and I could care less about your distress
I lie in the bed that I have made
