

# All These Things

## OneRepublic

I'll be a fool when the sun's out  
Burn you a fire when you burn out  
And give you the future you gave away  
And give you my youth for some million days I'll do all these things for you  
Take what's broken make it new  
Yesterday's gone yeah it went away  
I've been lost but I'm here today  
I'll do all these things for you I'll be the drug that you can't buy  
I'll tell you the truth when it's all lies, hey  
I'll give you the future you gave away  
I'll give you my youth for some million days I'll do all these things for you  
Take what's broken make it new  
Yesterday's gone yeah it went away  
I've been lost but I'm here today  
I'll do all these things for you Something to trust for the first time, oh  
Making it up for the last nights  
Sucks to love when you just lie, oh  
A couple of years and I'll have your soul and I'll do all these things for you, hey  
Take what's broken and make it new  
Yesterday's gone yeah it went away  
I've been lost but I'm here today  
I'll do all these things for you  
I'll do all these things for you  
I'll do all these things for you
