

Doing Me Wrong

Lil' Mo

You changed me and the way I felt about men
I was just so disgusted 'cause the one I loved I couldn't trust him
And you told me that if I never been hurt I would not know what happiness is
And just how good it feels
I was scared to give you all of me
'Cause my last love he left me helplessly
Like a bird with out his wings I was just sitting around
Yes I was so afraid
Going through the same thing again baby
I hate it to fall in love 'cause I have been through so many things I cant name
Same type, same thing, same game
But you showed me not to block my heart from every man that came walk up to me
'Cause you were the right one for me
I was scared to give you all of me
'Cause my last love he left me helplessly
Like a bird with out his wings I was just sitting around
I never thought I would ever find love this
I had no trust at all 'cause ever man but you had did me wrong
Here's a wonderful thing
Since I let go of my past loves
I'm glad I gave you a chance to show me you're a good man
I was scared to give you all of me
'Cause my last love he left me helplessly
Like a bird with out his wings I was just sitting around
I was scared to give you all of me
'Cause my last love he left me helplessly
Like a bird with out his wings I was just sitting around
