Here's To Another

Smile Empty Soul

I walked into a bar tonight
I knew that it was the last place I should be
I'm like a fly to the neon lights
A good buzz is the only thing I need

[Chorus]
Pull up a stool
Nothing to do except
Shot after shot
Drink till I puke
And I'm
Standing on the edge of what is real
I feel like I've drank away the better part of years
My fears have me
Pinned against a wall
without them I would fall so
Before I'm gone lets have a cheers

I've lived through some hard times
I've done the best I could with what I've had
Life is never a short flight
I'm still so young how did I get so

[Chorus]
Before I'm gone lets have a cheers
Before I'm gone lets have a cheers

Standing on the edge of what is real
I feel like I've drank away the better part of years
My fears have me
Pinned against a wall
But without them I would fall so
Before I'm gone lets have a cheers
Before I'm gone lets have a cheers
Before I'm gone lets have a cheers

Before I'm gone lets have a cheers
