Buried In The Justice Ground

Sodom

You can't ignore the warning signs
Strategies of hidden lies
You can't replace the truth by guns
Escape from all the wrathCorruption
Selection
Murder and ritual washing
Depression
Regression
Triumph of incredulityThis hate is forged in sacred fire
Disguised behind the holy war
Platoon leader's battlefield
To bring 'em democratic lawIllusions
Confusions
Instinctive superstition
Worshipping
And praying
Revenge could be so sweetBuried in the justice ground
Buried in the justice groundYou can't ignore the warning signsBuried in the justice ground
Buried in the justice groundStill waiting for deliverance
To stop the evil on the march
Insanity within our dreams
It's peace until eternityInvasion
Of freedom
Extinguished optimism
The anger
The hunger
Morphine to hold the fireYou can't replace the truth by gunsBuried in the justice ground
Buried to stop the evil on the march
Buried in the justice ground
Eternity
