

Never Enough

Adrian Belew

Hold me down, I'm a wounded man
Give me all your love, give me everything
Breathe me in, like a piece of sky
On a bed of flowers, on the longest night
It's never enoughCome and kiss me again and again
I won't stop until you tell me when
It's never enoughQuiet me in the burning heat
I'm a thirsty man, give me all you have
Whisper to me, tell me everything
Come and pour my wine and just one more time
It's never enoughCome and kiss me and hold my hand
I wanna love you again and again
It's never enoughGive me love, give me all your love
Give me everything 'cause it's never enoughCome and kiss me again and again
I won't stop until you tell me when
It's never enoughCome and kiss me and hold my hand
I wanna love you again and again
It's never enough, it's never enoughGive me love, give me all your love
Give me all your love 'cause it's never enough
Give me everything 'cause it's never enough, never enoughThat's enough
