

Safe in a Room

InMe

There's no mistakes to be made
Anymore for you and her
I sense your cold
Now that I'll always be there for you
And I know that I'll get this in your head We'll fight, we'll lie down on this field
Time will liberate us again
Sunshine, yeah, we'll talk in the grass and I know that I'm Safe in your room, there's no time
Yeah, the clock stopped years ago
Dear friend of mine, he makes me laugh
Yeah, the clock stopped years ago Know that I'll always be there for you
I've known you so long
I love you like a brother, I have to
Suddenly I, I know that I'm Safe In your room, there's no time
Yeah, the clock stopped years ago
Dear friend of mine, he makes me laugh
But he almost made me cry Don't ever do this, never end it
You know I cannot watch you cry
You are the best, of the rest
And you're gonna go so far There's no mistakes to be made anymore
For you and her, her, her
You know that I'll always be there for you
And I know that I'll get this in your head Safe in your room, there's no time
Yeah, the clock stopped years ago
Dear friend of mine, he makes me laugh
But he almost made me cry Don't ever do that again, she's not worth it
No, I cannot watch you die
You are the rest of the best
And I'll love you always Safe in your room
Safe in your room
Safe in your room
Safe in your room
