The Window

Steve Miller Band

Ask my baby what she wants to be
She'll say a monkey swingin' in a tree
Ask my baby what she's thinkin' of
She'll say there's nothing greater than loveWell, look through the window
Tell me what do you see
A beautiful planet
Peace and harmonyThink love you're surrounded
We are one you and I
Gather your leaves together
There's only love until we die
Until we dieAsk my baby what she's goin' through
She'll say the same thing, the same thing as you
Ask my baby what she's thinkin' of
She'll say there's nothing greater than loveLook through the window
Tell me what do you see
A beautiful planet
Peace and harmonyThink love you're surrounded
We are one you and I
Gather your leaves together
There's only love until we die
Until we die
