Birthday Present

Mirah

(Small Sale EP)You make my everything okay
You make me feel this certain way
It's like an ocean, like a wave
It's like when morning lights the dayIt only grows and grows and grows
You come to me when i'm asleep
You hold me close and it's so sweet
Somewhere between my head and feet
You make my alphabet completeIt only grows and grows and grows
If i were a planet in space
You'd be the astronaut who braves
My deserts and my lonely face
My axis holding you in place
