

# Birthday Present

[Mirah](#)

( Small Sale EP ) You make my everything okay  
You make me feel this certain way  
It's like an ocean, like a wave  
It's like when morning lights the day It only grows and grows and grows  
You come to me when i'm asleep  
You hold me close and it's so sweet  
Somewhere between my head and feet  
You make my alphabet complete It only grows and grows and grows  
If i were a planet in space  
You'd be the astronaut who braves  
My deserts and my lonely face  
My axis holding you in place
