

No One But You

[Kitty Wells & Red Foley](#)

Now when I'm by myself dear, who do I want near,
You, Noone but you
Now when I want some lovin', some old fashioned huggin'
It's you, Noone but you
You've got me talkin' in my sleep, sometimes even I can't eat
My heart don't beat the way it used to do
You got me rockin' and reelin'
Honey I got a funny feelin'
Over you, Noone but youInstrumental
Now when I go to sleep at night
I wonder if you're home all right
You, I'm thinkin' of you
Now you're my only baby and you're drivin' me crazy
You, I'm thinkin' of you
I hope the time's not far away, we can plan our wedding day
and then I'll have you for my very own
I'm not tryin' to be hasty but maybe someday baby
I'll have you, None but you
