I'll Be Waiting

Thunder

should you ever change your mind
about leaving everything we had behind
it don't matter,for whatever length of time
i'll be watingthings are always gonna change
everything is like another unread page
so if you ever feel the gypsy in you age
i'll be waitingcos i'm sure one day that you're gonna find
that there's an answer to the questions in your mind
so when you realise that the answer's inside
i'll be waitingso don't you cry now,don't be sad
just keep the memory of the good times that we had
you might discover,going back aint all that bad
so i'll be waiting
i'll be waiting forever
(solo)
cos i'm sure one day that you're gonna find
that there's an answer to the questions in your mind
so when you realise that the answer's there inside
i'll be waiting
