Snowflakes

Nuuxs

Where all snowflakes falling down to the ground
Melting in the cold, where I
Try to find the place to stay.
Where am I? (x2)

CHORUS:
Youâ€™ve got my jingle bell
Wrapped up my present well
Oh my...
Youâ€™re like the winter snow
You took my heart and frozen to ice

Gonna make you happy (x2)
With snow drops and gold dust
Letâ€™s load up and go

I see skeletons of trees, longer nights
Shaking in the breeze so low
Did you have to fade away
Where am I? (x2)

CHORUS:
Youâ€™ve got my jingle bell
Wrapped up my present well
Oh my...
Youâ€™re like the winter snow
You took my heart and frozen to ice

Gonna make you happy (x2)
With snow drops and gold dust
Letâ€™s load up and go

....

Gonna make you happy (x2)
With snow drops and gold dust
Letâ€™s load up and go
