

Saving the Best for Last

Cast Iron Filter

Verse

I get off work about, quarter to five
It's Friday afternoon good to be alive
Kiss my paycheck I'm drivin home
Sometimes I feel like I'm too busy to be alone

Church on Sunday I pray my fill
Can't do everything but my father will
Took me a while to find out I ain't a perfect man
All I can do is do the very best I can

Chorus

There's somethin in your eyes tonight baby
and everythin just looks alright
Livin now and throwin away the past
yeah we're waitin to see the man behind the mask
saving the best for last

Verse

I ain't been drinkin for close to a year
It don't take much for the devil to reappear
Well it feels different but I'm feelin good
I'll try not to love you, more than I should

I been to Athens I been to Rome
I went away to find out I was comin home
When I'm around you I got so much to say
We could go back to Independence Day

Chorus

I ain't too proud of some things that I done
But living without you love, well that ain't no fun
We don't got much but we still gotta try
Well I don't mind if we're barely gettin by

chorus

saving the best for last
