Good Day Bad

Meshell Ndegeocello

I'm surprised every sunrise
The earth would have me back
Surprised my knees hold me up
That's it not all gone black
And I'm sure by nightfall
I will burn up all I haveSo don't go out your way
To make a good day bad
So don't go out your way
To make a good day badIt used to be like this
Like a lover and an afternoon
Used be gold and shadows
Some distant floating tune
She came and went
Guess I should've tried like mad
But I did not lift a fingerI turned a good day bad
I turned a good day badI am haunted late at night
And no one cares to ask me how I feel
My only friend's my flask
Wish I knew my momma
Wish I could forgive my dad
Should've known better
Wish I hadSeen more good than bad
Seen more good than bad
