

# Good Day Bad

## Meshell Ndegeocello

I'm surprised every sunrise  
The earth would have me back  
Surprised my knees hold me up  
That's it not all gone black  
And I'm sure by nightfall  
I will burn up all I haveSo don't go out your way  
To make a good day bad  
So don't go out your way  
To make a good day badIt used to be like this  
Like a lover and an afternoon  
Used be gold and shadows  
Some distant floating tune  
She came and went  
Guess I should've tried like mad  
But I did not lift a fingerI turned a good day bad  
I turned a good day badI am haunted late at night  
And no one cares to ask me how I feel  
My only friend's my flask  
Wish I knew my momma  
Wish I could forgive my dad  
Should've known better  
Wish I hadSeen more good than bad  
Seen more good than bad
