Undermine

Wide Eye Panic

Are we bred to feed it?
Made too blind to see it?
Profit from it?s design.
Karma leading the blind.
Fundamentalist rule.
Systematically ruin.
Stifle cry of the mass.
How much more can it last?
Is there a feasible end?
You know that passive view.
Fuck no it's gonna take us shoving our fist down their throat.
And if you're like me, you're glad to have the chance
to tell a fellow man to shove it up his fucking ass.

RISE...
Freedom they say isn't free so,
RISE...
Counteract their tyranny and,
RISE...
Undermine authority,
RISE...

It is time to stand my fellow man.
They have underestimated you for too long.
Only you have the power to change your world.
But the choice is yours to make.

Alone you make the choice to stand for your beliefs.
Alone you make the choice to stand for your beliefs.
Alone you make the choice to stand for your beliefs.
Alone you make the choice to stand for your beliefs.

RISE...
Against society,
RISE...
Against religion,
RISE...
Against profanity,
RISE...

Against obsession.

It's time to make a change.
It's time to make a change.
It's time to make them change.
now. now. now. NOW.
