

End of the Summer

Alec Benjamin

When I was fifteen in parent's house
I met a good girl when school got out
And I was too scared to tell her how
 I loved her still
 I loved her still
 I loved her still
When we grew up and we both moved out
We went to different schools in different towns
 And is it too late to tell you now
 I love you still
 I love you still
I love you still Mistakes I made when I was younger
 And it's too late to discover
 Love at the end of the summer
 At the end of the summer
And there are times that I wonder
 Is it too late to discover
 Love at the end of the summer
 At the end of the summer
 summer
summer Well I think back every now and then
 So I can sit back and just pretend
 That when you call me
 I will tell you how I feel
 And I never will
 I never will
 I love you still
 I love you still
 I love you still
I love you still Mistakes I made when I was younger
 And it's too late to discover
 Love at the end of the summer
 At the end of the summer
And there are times that I wonder
 Is it too late to discover
 Love at the end of the summer
 At the end of the summer
 summer
 summer

summerAnd every night before I sleep
I like to think you think of me
And every night before I sleep
I like to think you think of
I think that we should think of
Do you ever think ofMistakes I made when I was younger
And its too late to discover
Love at the end of the summer
At the end of the summer
And there are times that I wonder
Is it too late to discover
Love at the end of the summer
At the end of the summerMistakes I made when I was younger
And its too late to discover
Love at the end of the summer
At the end of the summer
And there are times that I wonder
Is it too late to discover
Love at the end of the summer
At the end of the summer
summer
summer
