

Tell Me Something Good

Chaka Khan

You aint got no kind of feeling inside
I got something that will sure enough set your stuff on fire
You refuse to put anything before your pride
But I got that will knock all your pride aside Tell me something good
Tell me that you love me, yeah Tell me something good
Tell me that you like it, yeah Got no time, is what youre known to say
Ill make you wish there were 48 hours to each day
The problem is, you aint been loved like you should
What I got to give will sure enough do you good Tell me something good
Tell me that you love me, yeah All you gotta
Tell me something good
Tell me that you like it, yeah Tell me something good
Tell me something good, yeah Tell me something good
Tell me that you like it, yeah
That you like it, yeah Tell me something good
Tell me something good
