

Mount Everest

Teenage Fanclub

In the highest mountain
In the only fountain
In the Russian river
With you Heard a million singing
For a new bell ringing
Set a world in motion
With you There's a new generation
They've been sleeping all day
Long ago when tomorrow is So, the flow don't freeze up on this
Hope you know that tomorrow is
Still above you Everybody's chasing
Everybody's facing
Everyone's in motion
With you If you're chasing the morning
If you're sleeping all day
Long ago, when tomorrow is So, the flow don't freeze up on this
Hope you know that tomorrow is
Still above you
