

Strange Love

[Koop](#)

Strange love, even though you hurt me I feel blessed love
Baby I'm your puppet on a string
Making me tumble and swing
Trouble's what you bring
Strange love, strange love Strange how, you control my every little move now
Hanging from your strings is all I know
Starring in your puppet show
Never let me go, strange love All the things you've said and done
There's no space for me to run
Baby I've lost and you have won
'Cause' all I really want is Strange love, even though you hurt me I feel blessed love
Baby I'm your puppet on a string
Making me tumble and swing
Trouble's what you bring, strange love
Strange love, strange love
