

Good Morning Beautiful

Deftones

One of these days
You'll break me of many things
Some cold white day
But you're crazy if you think I would leave you this way You should wake up
Before the wrath comes
Me and you could take off
Before the wrath comes soon And one of these days
I pray it will be sometime soon
On a day like today
You'd be crazy not to want me to teach you the way You should wake up
Before the wrath comes
Me and you could take off
Before the wrath comes soon I know what you're like
I've read it on the walls
You're too tired, you choose Heaven over the Earth
And me but come on, please You should wake up
Before the wrath comes
Me and you could take off
Before the wrath comes Maybe you should take off
Yeah you should take off
