

# How Can I Love You

XIA

How can I love you  
Do you know?  
Can you tell me?  
So my heart can fill in with your heart  
Can you open the way?

How can I stand with you  
It has already started  
I can't stop  
When I open my eyes, I can only see you  
You became my everything  
Oh Love

Everyday I'll give you  
all of my love  
This is my first love  
How can I express it?  
Everyday I'll give you  
all of my heart  
Words I prepared for you  
I can say them with confidence  
Even though you've stopped in fear  
I love you

How can I stand with you  
Close your eyes  
I am next to you  
Will you take a step to me  
So I can touch your cheeks?  
Oh Love

Everyday I'll give you  
all of my love  
This is my first love  
How can I express it?  
Everyday I'll give you  
all of my heart  
Words I prepared for you  
I can say them with confidence  
Even though you've stopped in fear

I love you

Everyday Iâ€™ll give you  
all of my love

This is my first love

How can I express it?

Everyday Iâ€™ll give you  
all of my heart

Words I prepared for you

I can say them with confidence

Even though youâ€™ve stopped in fear

I love you
