

Google Me

Kim Zolciak

Research me, you'll find me
Click them keys and Google....G-O-O-G-L-E me
Research me, you'll find me
Click them keys and Google me
(x4)I'm not a material girl, some just may think it
'Till I let them into my world
You know me best, better than all the rest
Dolce Gabana, Chanel, and Prada
Home and not a, a damn thingNow it's a shame you played those games
I'm not the same as them, the same as them
My name is Kim Zolciak
You can find me on your TV screen
Do your research honey
Click them keys, Google meG-O-O-G-L-E me
Research me, you'll find me
Click them keys and Google me
(x4)It aint goin' be easy replacing me
Those other girls, they wanna be like me
But they're just Barbies, all body, no brains
Google my name, I'm doin' my thing.And it's a damn shame
It's a shame you played those games
You lame no-name, knock off men
You're all the sameYou were my world
You, me, and both of my girls
Now it really doesn't mean a thing
Click them keys, Google meG-O-O-G-L-E
Research Me, you'll find me
Click them keys and Google me
(x4)I'm that chick all the guys wanna get with
Click them keys, Google me
Understand I'm in high demand
#1 search make ya laptop crash
YouTube, Bravo, check my tweets
22 million following me G-O-O-G-L-E me
Click them keys, Google meG-O-O-G-L-E
Research Me, you'll find me
Click them keys and Google me
(x4)
