

# Flower Scene

## Plasticland

Sister brought these magazines  
just the day books to a dream  
Darlings from the underground  
the best yet to be seen  
All of my favorite pop stars are  
the foil in between  
Flower scene, flower scene  
Ring out the scepter this purple flowing  
The follow king and queen  
Calling out for flower children  
Love is what they bring  
All of my favorite pop stars made  
the foil in between  
Last the chance I had to page  
through the flower scene  
Flower scene, flower scene  
The flower scepter explodes tonight  
It showers the hall with liquid lights  
There's a bow of glammering in the air  
(it's a rainbow, it's a rainbow)  
There's a bow glowing on down ther  
(it's a rainbow, it's a rainbow)  
Flower scene, flower scene
