

Lucky Guy

David Choi

It's been so long since I've met someone
That makes me feel this way
Makes me smile, and that's hard to do
I don't think it's something you realize you do
You make me feel
Like I'm the only guy
With you in the world
But we can't be together
Can't really be friends
We can't be lovers
And we can't pretend
Oh that boy in your life
Better make you his wife
And he better believe he's a lucky guy
You wanted a song well here's one for you
Nobody will know except for us two

Don't ask me about it
Cuz I won't tell the truth
Just know that there's someone
Thinking of you
You make me feel
Something I wish wasn't real at all
Chorus
You were never mine to begin with...
So we can't be together
Can't really be friends
We can't be lovers
And we can't pretend
Oh that boy in your life
Better make you his wife
And he better believe he's a lucky guy
