

All Bets Are Off

[Jesse Malin](#)

Bobby was postman, working for the system
Never did a bad thing, his family's gonna miss him
Last house on the mail route, always kept the lights down
All bets are off
Mary let her hair down, now she's
trying to stand tall
Hiding from the neighbors, blame it on the hometown
I've been wasted, I've embraced it
I've been working all my life
And I've been scripted, I've been lifted
I don't care what people say
And I've been running into nothing all along as time goes by
All bets are off
And I've canceled out all my
summers
And I've canceled out the winters in my room
And I canceled out the people that I used to know
They thought he was an agent, standing in the doorway
They shot him in the face man, blew away his whole life
I've been wasted, I've embraced it
I've been working all my life
And I've been scripted, I've been lifted
I don't care what people say
And I've been running into nothing all along as time goes by
All bets are off
All bets are off
All bets are off
