

# Sleepwalking

## Deerhunter

I'm not mad about anything  
You forced on me a hopeless dream  
I've been looking for one true thing  
Too numb to see I've been sleepwalking  
Too horrified to see Wait and think it doesn't get you down  
You're flying now but you'll come back down  
And with both your feet on the ground  
You'll look around, yeah you'll look around  
Too horrified to see I've been looking for some harmonies  
Some words to sing that could really bring  
The lonely-hearted some company  
All the people that were just like me yeah When a decade is spent searching  
For something time will never bring  
Something starts to shut down inside  
My body and my tired mind  
Too horrified to see
