

Party Girl

Fury In The Slaughterhouse

I know a girl called janet
She's got the cutest ass of this planet
I don't know if I could believe her
Or what she said was true
She's just a party girl
She's just a party girl
But all I want is just a kiss from her
Party girl !!!!!Look there's she going in the streets
Oh she's just canned heat
Oh how I love this girl
She brings the world in a whirl
