# Electricity

## Nonpoint

Time in the frequency
The whole world is listening
From the wild west stories
North pole, south pole and everywhere in between
The way it takes over me
Like the power of a lightning bolt
I let it on me, move me
Makes me feel like I'm out of controlTake it over (it's electricity)
Take it over me
Take it over (it's electricity)
Take it over me
Take it over me (it's electricity)
Take it over me (it's electricity)
Take it over meSecond of complicity
All the years of my memories
Every stop in every city,
Every bar every state and everything in between
Every getaway story that I know
Every path that I let go
All the ants in the street
Places full of people
Sending me out of controlTake it over (it's electricity)
Take it over me
Take it over (it's electricity)
Take it over me
Take it over me (it's electricity)
Take it over me (it's electricity)
Take it over me
Take it over me (it's electricity)
Take it over meYou're only (you're only)
Strong as you let you become
You're only (you're only)
You're only (you're only)
Strong as you let you becomeTake it over (it's electricity)
Take it over me
Take it over (it's electricity)
Take it over me
Take it over me (it's electricity)
Take it over me (it's electricity)

Take it over me
Take it over me (it's electricity)
Take it over me
