

# The Don

## Kool Moe Dee

I'm The Don, armed and dangerous  
With a mic I'm like ordain  
I just make a wish, it becomes a command  
The rhyme family is my fans My territory spans from New York to Hollywood  
The whole country's my neighborhood  
I extort fans support with rhymes that taught lessons  
And caught the ears of listeners as they enlist  
In the hip hop mob on the job, stop dissin' us No drugs at all, we don't steal or rob  
We just get paid in the Moe Dee mob  
I demand fans family loyalty, tour support and record royalties  
Whenever a band tries to take my fans, I put out a hit, understand I'm The Don, started out in the parks  
As a hit man killin' with the rhymes that sparks  
A mic sparks of light turns dark to light  
Freezes emcees and they drop the mic Hit the deck, you know what this is  
Don't nobody move and I mean biz  
One dumb hero tried to step  
So I pulled out my mic and rhymed him to death Other emcees wouldn't put me on  
So I took over, now they're gone  
I made the connections got paid protection  
Fees from emcees and no late collections Take no shorts up front on the double  
You ain't got it, you got trouble  
I'll pull out a mic and rhyme the bust  
Hum, another one bites the dust With the ladies, I'm ain't just a don  
Infact I'm more like a Don Juan  
Pull ladies in bunches  
Break my heart, I roll with the punches Write 'em off like a tax no respect  
You ain't down, next  
'Cause I'm like a hard core Casanova  
Cross me once, girlfriend you're over Outta here quick as a jet no sweat  
It's no limit to the girls I get  
No time for games, make no mistakes  
Dis me you're done, that's the brakes One conversation and my point's across  
You don't like me, it's your loss  
Spread the news, I get rave reviews  
I'll make you an offer you can't refuse I'm The Don, takes control of the action  
Without question and who's askin'  
A takeover's now in effect  
A world tour to make my connect The R&B radio family supports me  
We'll put a hit out on Top 40

Video families B E T

We'll put a hit on MTV  
Store reports and the Billboard charts  
Work hand in hand with the local jocks  
As hit men for hire personal hit men  
Makin' the hits from the very first shipment  
Red and Chuck and the fans that love me  
Mr. Magic and my man Buggsy  
The hottest DJ's in every town, is down with The Don  
A sucker emcee in a second I'll dis  
With a flick of the wrist, he'll kiss my fist  
Tip his hat and bend and bow  
How ya like me now?  
The OK Coral and the Wild Wild West  
Is recreated when put to the test  
Sparks will fly like the 4th of July  
My name in flames will light the sky  
Other rappers go down tryin' to confront me  
You know where to find me whenever you want me  
But think real hard before you step  
And remember, I'm a vet  
Runnin' the yard ever since grade school  
Never played cool, but always stayed cool  
Before you think about steppin' I already saw ya  
Step off boy, I got somethin' for ya
