Magazine Girl

Burning Jet Black

While your friends are growing up and taking vows
Youre still giving all your body will allow
But all the boys are gonna love you now
And your talent means so much to me
Now I cant breathe
And my knees start to shake
Youre gonna be my heartbreakMy little magazine girl
My little magazine girl
Slip us a smile
Show the camera your world
My little magazine girlThe Jesus freaks are knocking down your door
Calling you a sinner and a whore
But all the boys are gonna love you more
And your art it means so much to me
Now I cant breathe
And my knees start to shake
Youre gonna be my heartbreakMy little magazine girl
My little magazine girl
Slip us a smile
Show the camera your world
My little magazine girlThe devils come and taken me over
My love for you is big
And its only getting harder
The devils come and taken me over
Stared into your eyes
But now my eyes are creeping lowerNow I cant breathe
And my knees start to shake
Youre gonna be my heartbreakMy little magazine girl
My little magazine girl
Slip us a smile
Show the camera your world
My little magazine girl
Show us your world
Show us your world
Show us your world
My little magazine
