Sorry...Wrong Trajectory

Flickerstick

Sorry...wrong trajectory
Combat is a part of our chemistry
Could you control me if you tried
Cause its plain to see I'm overboard
I'm thrown out, my ships are sent ashore
Could you control me if you tried
Cause you and I we may feel surprised
To cry out loud just one more time
Cause you're just another part of me
Somehow I know you still believe
You could control me if you tried
So where's your heart at now
Cause you're always running out
When everyone seems to change
Don't you know that I'm still feeling the blame
Tonight I'm gonna be ready for youSo let's break it down
I know that the pain still lies beneath you
A common attraction
I wanted to see you
I wanted to be you
To be you somedaySorry...wrong trajectory
Combat is a part of our chemistry
Could you control me if you tried
