

Pull Up

Swift

[Hook]

Imma pull up, just to hop out and stunt
Errybody know wassup, ride on 'em
Pound in my cup

'Cuz you only live once
Feel the vibes on it
Imma go all in my bag
Then imma go live on 'em (live on 'em)

'Cuz I've been down to do it all
Tell me what you got in mind
Imma pull up, just to hop out and stunt
And you gotta know it, know it, know it
Tell me what you got in mind

Imma pull up, just to hop out and stunt
And you gotta know it, know it, know it
Imma pull up[Verse 1]

Party on Concord, you should pull up now
Errybody got a red cup, throwin' it down
We're tryna have fun and live life like it ain't no tomorrow
And Imma be here 'till the mornin'
You gon' be here when I'm callin'

Ooh yeah, ooh yeah, ooh yeah yeah yeah Pull up game too strong
I might hop out too fast

I don't know how I'll last
I do it just to stunt on your ex
You know a cool nigga up next
And Imma leave your bitch obsessed
She wanna fuck with me if she could

Cuz she know it's all good like the bottom of the net (Wet)[Hook]

Imma pull up, just to hop out and stunt
Errybody know wassup, ride on 'em
Pound in my cup

'Cuz you only live once
Feel the vibes on it
Imma go all in my bag
Then imma go live on 'em (live on 'em)
'Cuz I've been down to do it all
Tell me what you got in mind
Imma pull up, just to hop out and stunt

And you gotta know it, know it, know it
Tell me what you got in mind
Imma pull up, just to hop out and stunt
And you gotta know it, know it, know it
Imma pull up[Verse 2]

Yeah

Right on Concord, where you find me at
Party never ending we insomniacs
First tap the bottle then twist the cap
I do anything now to bring them times back
Just to feel like the world is yours
Same time, shorty you on all fours
She ain't mine, so we might all score
Same lines, you know them niggas all for it, same kind
You know what's goin' on at the crib, dawg
You left your girl, man you get it how you live, dawg
No problem, we can take it to the fists, dawg
Outside it's a big brawl
'Till a nigga let a big shot lick off
Clear it out, then it's right back to what we do
My nigga in the city said he whipped five minutes
and he 'bout to get a bottle and come through

True[Hook]

Imma pull up, just to hop out and stunt
so errybody know wassup, ride on 'em
Pound in my cup
'Cuz you only live once
Feel the vibes on it
Imma go all in my bag

Then imma go live on 'em (live on 'em)
'Cuz I've been down to do it all
Tell me what you got in mind
Imma pull up, just to hop out and stunt
And you gotta know it, know it, know it
Tell me what you got in mind
Imma pull up, just to hop out and stunt
And you gotta know it, know it, know it
Imma pull up (Imma pull up)[Outro]

Imma pull up (Imma pull up)
And you gotta know it
Imma pull up (Imma pull up)
And you gotta know it
Imma pull up (Imma pull up)
And you gotta know it

(And you gotta know it)
