

# Easy to Ignore

## Sixpence None the Richer

You and the moon are a beautiful sight to me  
The stars in your eyes make it really hard to see you  
A night in the sun is all I really want  
You and me with the best of both for once  
Oh and night breaks  
My heart could not ache  
Anymore  
Am I that easy to ignore?  
You let your song blow right through me  
Your mighty intellect makes you mighty hard to see  
Will there come a time for me to be  
More to you, more to me?  
Oh and night breaks  
My heart could not ache  
Anymore  
Am I that easy to ignore?  
My heart could not ache  
Anymore  
Am I that easy to ignore?  
You and the moon are a beautiful sight to me
