

# Straight Jacket

## Skindred

Wha dem ah go do when we get too strong Pick up stickz ah new selection  
Handle the pain and the rejection  
Giving all of the world ah shock to dem brain Cant take this botheration  
Chemical masturbation  
Please nurse go tell this patient  
Same time next week please come again  
Go on the train or go on the bus I don't wanna go on the bus  
I don't wanna cause no fuss  
Ive got these bombs going off in my brain Straight jacket  
Straight jacket  
Man i cry fe dem you know Demons won't ever let them go Medication will make them blow My diagnosis this  
ones insane  
In your mind them voices repeat  
What you can't see you cant defeat  
Got to stay and look out vigilantly  
Coz they can't calim down and they can't be tamed  
Say open the door and lets all see Which one of you mother fuckers are stronger than me  
None of you mother fuckers are stronger than me  
I've got this straight jacket on my back And i just can't get it off
