

Black and Blue

Barry Manilow

There are no stars tonight
There are no words to say
I feel my soul losing you Where did the good times go
Baby what can we do
Color our love Black and blue
Black and blue When our hearts were young
Clinging to each other
Moonlight used to glow When our hearts were young
Then there was no other
Why'd we let it go Down on the avenue
You can forget your name
Paint pretty pictures, false and true Picture what we've become
Running is all we do
Color our love Black and blue
Black and blue Looks like a storm tonight
Look like a storm tonight
A storm is overdue
A storm is overdue
Color our love
Color our love Black and blue
Black and blue
