Master

Jon Oliva's Pain

take this, you know what i want
you take what you need
i'll give whatever it takes to get you off
you live with no direction
the chains that hold you to the life
orgasmic constant pleasure
i can grant you the addiction
beg to your master
from fucking pain
flee from reality
let me dominate you
fantasy and hardcore relief
don't let that motherfucker rape you blind
take control of every avenue
leave it all behind
this is what you deserve
beg for me i give you what you need
this is what you deserve
cut and bleed rituals come hither creed
break away pleasure awaits your heart
rush inside before it tears you apart
right now degeneracy takes control of your mind
immortal thoughts encompass all that you'll find
just follow your emotions
fall into my world
let the rest take direction
crawl into my world
crawl into my world
fall into my world
