

We Are One

Alicia Bridges

You sleep just like a baby
After you've been holdin' me
With tenderness and with loveAnd as I watch you sleepin'
My heart builds up with feelings
That make me cry the tears of loveWe are one
You and me baby
In body and soulWe are one
We take care of our special love
And when the mornin' comes
And in the face of the sun
We'll still be togetherWe are one
We are oneAs I watch you sleepin'
I wonder how I'd ever live without you dear
Oh, without your loveMy fingers trace your brow
And then I feel a tingle deep inside, takin' a high
We were makin' love, oh loveWe are one
You and me baby
In body and soulWe are one
We take care of our special love
And when the mornin' comes
And in the face of the sun
We'll still be togetherWe are one
We are oneAnd when the mornin' comes
And in the face of the sun
We'll still be togetherWe are one
We are one
