

Stop Stalling

Derby

Autumn breeze that floats like leaves
I crush beneath my feet
Heavy lows that don't go slow
It sucks me out to sleep

Somewhere in this fallen state
I find the only proof
Weights upon my shoulders make
Lines unbroken truth

You stop, you stop stalling
And I'll stop staaaalling
We can start starting again
We can start starting again
Cause it's so so easy

Still I'm only wide awake
Just thinking to myself
If ever there's a need for more
It surely wouldn't help

I sit inside a slumber's watch
Years just roll away
To find myself
Become myself
And pass the day by day

You stop, you stop stalling
And I'll stop staaaalling
We can start starting again
We can start starting again
We can start starting again
We can start starting ag--a-a-ain

Hey hey see
Don't you ever wanna be with
Something that's controlling your name
No no please
You kept playing with the reason that

Your finger's only pointing the blame

Hey now
Everything is going your way
Hey now
Everything is going your way

Autumn breeze that floats like leaves
I crush beneath my feet
Heavy lows that don't go slow
It sucks me out to sleep

Somewhere in this fallen state
I find the only proof
Weights upon my shoulders make
Lies unbroken truth

You stop, you stop stalling
And I'll stop staaaalling
We can start starting again
We can stop starting again
We can stop starting again

Hey hey see
Don't you ever wanna be with
Something that's controlling your name
No no please
You kept playing with the reason that
Your finger's only pointing the blame

Hey now
Everything's going your way
Hey now
Everything's going your way
Everything's going your way
Everything's going your way
Everything's going your way
