

# Line Up

## Elastica

Drivel head wears her glad rags  
She's got her keys, money and fags  
I know that her mind is made up  
To get rocked Drivel head needs a new man  
As only a drivel head can  
He's a hormonal nightmare  
So beware Another victim of line up in line, line up in line is all I remember  
Oh, how their favors change, you could've been kinder  
Yes, yes line up in line, line up in line is all I remember  
Oh, how their favors change, you could have been mine, uh Drivel head knows all the stars  
Loves to suck their shining guitars  
They've all been right up her stairs  
Do you care? No Drivel head knows all the bands  
Knows them like the back of her hands  
You can't see the wood for the trees  
On your knees Another victim of line up in line, line up in line is all I remember  
Oh, how their favors change, you could have been kinder  
Yes, yes line up in line, line up in line is all I remember  
Oh, how their favors change, you could have been mine, uh
