

Umbrella Man

Gary Moore

Don't want to be your umbrella man no more
Don't want to be your umbrella man no more
If you've got your problems, take them to the man next door
Need a light bulb in the socket, you better put it in yourself
Need some money in your pocket, better ask some body else
Don't want to be your umbrella man no more
If you've got your problems, take them to the man next door

He drives a Lamborghini, good looking and he's rich
But I don't know what he sees in such a selfish little bitch
Don't want to be your umbrella man no more, no
If you've got your problems, take them to the man next door
Don't want to be your umbrella man no more
I don't want to be your umbrella man no more
If you've got your problems, take them to the man next door
If you've got your problems, take them to the man next door.
