

# Can't Get Loose

Sammy Hagar

What makes him stand and fight  
When he only wants to love  
And why do they push so hard  
When he only needs a shove  
Every time I see him go  
Everybody says to wait  
Can't get loose  
You can fight like hell  
But you can't get loose  
You can dream  
But you can't get loose  
It's holdin' on, holdin' on  
Can't get loose  
Oh, no, no  
What makes on man rich  
How's another man get so poor  
What make someone care so much  
For things another man can just ignore  
Some questions go unanswered  
And they have for quite some time  
Something's forever sacred  
We're just prisoners of our own minds  
Can't get loose  
We can fight like hell  
But we can't get loose  
We can dream  
But we can't get loose  
Keep's holdin' on, holdin' on  
Can't get loose  
Shake it, share it, share it loose  
Oh yea  
There she sits  
With stars in her eyes  
But too afraid to dance  
'Cause every guy that she holds so close  
Just wants to get in her pants  
Oh yea  
Can't get loose  
Can't get loose

Can't get loose  
Can't get loose  
Tell me what keeps her by his side  
When she's treated just like dirt  
The fear of the dark unknown  
Appears to be much worse than the hurt  
So she stays up nights and dreams  
Of a knight in shining armour  
Who will rescue her one day  
While time keeps going against her  
Can't get loose  
We can fight like hell  
But we can't get loose  
We can dream  
But we can't get loose  
Keep's holdin' on, holdin' on  
Can't get loose  
Shake it, share it, share it loose  
Oh yea
