Through Thick And Thin

The Wanderer

At the age of 13 I signed my first deal, little did I know what that meant
My father told me to never let any of this get to my head
At the age of 16 i was higher than the stars, I thought i was living the life
Caught up in the mess I almost forgot the most important thing

My family, the heart in me
All I can say is i'm sorry

My mother said chase your dreams
My father taught me to believe, in blood through thick and thin
My brothers through my attitude
I'll repay with gratitude (gratitude)
And blood through thick and thin

Now at the age of 19 I take a look back and see all my mistakes
And the biggest one of all is not being there when you needed me
All I can do now is set the blood on fire for you every day
I'll make up for every single thing I'll be here for you until the end

My family the heart in me
I'll promise i will be here

My mother said chase your dream
My father taught me to believe, in blood through thick and thin
My Brothers through my attitude
I'll repay with gratitude (gratitude)
And blood through thick and thin

Father, I'll always remember the world with you by my side
And father, you'll always be my hero, oh oh
And mother, 'nada se compara con tu amor', oh oh, oh oh, oh oh,
And brothers the two of you are my life and soul.

My family, the heart in me
I'll promise i will be here

My mother said chase your dream
My father taught me to believe, in blood through the thick and thin
My brothers through my attitude
I'll repay with gratitude (gratitude)

And blood through thick and thin
Blood through thick and thin
Blood through thick and thin.
